Product Description

High Quality Fiberglass Water Slide for Water Park

Verified Top Manufacturer of Water Play Equipment in China

Rainbow Racer Slide

The Rainbow Slide is a compelling attraction popular with young visitors and essential for waterpark projects. Featuring between 3-10 parallel slides, it allows multiple riders to enjoy the experience simultaneously. Visitors can use their bodies or floating pads to glide, experiencing the thrill of high-speed racing into the pool. The slide includes water buffering at the end for safety and enhanced enjoyment.

Spiral Duration Slide

The spiral slide is a classic for efficient visitor traffic flow in waterparks. Offering exceptional spatial vision and play experience, it's a must-have amusement park attraction. Riders experience thrilling spatial and temporal variations as they pass through transparent sections, streamers, black holes, and open chutes. Customizable to fit specific location requirements.

Why We Are Your Best Partner

What services can we offer?

We provide comprehensive one-stop solutions including investment planning, construction, facility manufacturing, engineering, environmental art, materials, operation management, and investment cooperation.

Our product range includes water slides for all ages, wave pool equipment, water playground structures, lazy rivers, spray pads, and numerous water play accessories. Backed by professional engineers, experienced construction teams, and dedicated after-sales service, we ensure prompt resolution of any issues.

What makes us different?

We understand that successful waterparks require strategic combinations of attractions, not just slides. Our design team creates master plans considering every detail from initial concept through completion, having designed over 5,000 kilometers of slide paths in our history.

How can you trust us?

Begin by sending us an inquiry. We'll provide exclusive design and planning for your project site within 48 hours.
