Product Description

Long Water Slide Fiberglass Water Park Slide Dragon Slide for Adult

Verified Top Manufacturer of Water Play Equipment in China

We specialize in high-quality fiberglass water slides and comprehensive water park solutions.

Rainbow Racer Slide

The Rainbow Slide is a compelling attraction popular with young visitors, featuring 3-10 parallel slides that allow multiple users to race simultaneously. Visitors can use their bodies or floating pads to glide down, experiencing the thrill of high-speed racing into the pool. The design includes water buffering at the slide's end for a safe and exciting finish.

Spiral Duration Slide

The spiral slide is a classic attraction for high visitor throughput in water parks. Offering both visual appeal and an exciting play experience, riders glide through varying sections including transparent, illuminated, and dark tunnel segments. Custom configurations are available to match your park's specific requirements.

Barrel and Sledge Slide

This double-channel slide combines a barrel section with a sledge-style run, offering a unique experience with low installation costs and minimal space requirements. Riders slide directly on their bodies without additional equipment.

Aqua Loop Slide

Our large swing slide combines translucent glass and steel materials to create a thrilling vertical drop experience. Riders begin in sealed cabins at a 16-meter high platform, then plunge down a near-vertical slide tube with dramatic visual impact that captivates both participants and spectators.

Why Choose Us as Your Water Park Partner?

We offer comprehensive one-stop solutions including:

- Investment planning and project development
- Facility manufacturing and engineering construction
- Environmental art and material support
- Operation management and investment cooperation

Our portfolio includes over 80 types of water play equipment, from slides and wave machines to lazy rivers and splash pads. With extensive experience designing thousands of kilometers of slide paths, our team provides expert guidance throughout your project.

Our Differentiating Advantages

We understand that successful water parks require strategic combinations of attractions, not just quantity. Our design team works closely with clients from initial concept through completion, considering every detail to create unique environments that delight guests. We can provide custom designs for your specific site within 48 hours of receiving project details.

Complete Water Park Solutions

Our products are widely used in holiday hotels and resorts, including:

- Water slides for all age groups
- Wave machines with both air-blast and vacuum surf technology
- Outdoor water playground structures and themed elements
- Leisure rivers and extreme river attractions
- Interactive spray pads and splash play equipment
