Product Description

Aquatique Grand Toboggan for Africa Waterpark

Verified Top Manufacturer of Water Play Equipment in China

Spiral Water Slide Features

The spiral slide is a classic attraction for high visitor throughput in water parks. Offering both spectacular spatial vision and thrilling play experience, it's an essential element for any amusement park. Riders experience dynamic spatial and temporal variations as they glide through transparent sections, light effects, dark tunnels, and open chutes. Each spiral slide can be custom-designed to fit your specific location requirements.

Our Comprehensive Water Park Solutions

We offer complete water play equipment including:

- Water slides for both adults and children
- Swimming pool wave machines (air-blast and vacuum surf wave systems)
- Outdoor water playground structures and fiberglass pirate boats
- Lazy rivers and extreme tidal rivers
- Over 80 varieties of themed spray pads
- Numerous interactive water play elements

Why Choose Us as Your Water Park Partner?

Our team brings unparalleled expertise with over 5,000 kilometers of designed slide paths. We understand that successful water parks require strategic combinations of attractions, theming, and amenities - not just slides. From initial concept to final construction, we provide:

Comprehensive Services	Investment planning, facility manufacturing, engineering construction, and operation management
Custom Design	Exclusive planning solutions tailored to your site within 48 hours
Professional Support	Experienced engineers, construction teams, and responsive after-sales service

Our professional design team works closely with you from initial concept through to completion, ensuring your water park creates a unique, enjoyable environment that keeps guests returning.
